

Bottle Stoppers

| | |
|---|--|
| <p>A tapered hollow cork, the traditional material for wine stoppers, is secured around a hardwood dowel at the base of each stopper. This provides a firm and tight seal for liquids in all common bottle sizes. The cork can be replaced if stained or deformed by long term use.</p> | <p>The silicone seal is a good choice to avoid any staining or flavor transfer for liquids such as red wines or vinegars. The ribbed design provides a firm and tight seal for liquids in all common bottle sizes.</p> |
